Professional Summary

I am a ComputerScience undergrad with strong technical and interpersonal skills. I love interacting with people. I have a strong work ethic and tries to work to perfection. I like having tasks that require tactful handling. I am always looking for improvement and hence appreciate constructive criticism.

Skills

- Programming Language: C#, JavaScript, Framework: .NET
- OOPS, X++ Database Server: MySQL
- Markup Languages: HTML5 Web Development: API development specifically for web use
- Design: CSS3, Bootstrap3
- Development Tools: GIT, Visual Studio, ChatGPT, GitHub Copilot
- **Soft Skills:** Teamwork, Problem-solving, Good Communication

INTERNSHIP

Software Trainee
TECHPRO COMPSOFT PVT LTD, NOIDA, UP **Mar 2023 - Jul 2023**

- Built Curd API Back-end part of progressive web application and programmed in C# and asp. Netcore6, SQL.
- Worked within .NET frameworks to consistently meet Task in project timelines.
- Built web application within C#, .NET core 6, MVC, ASP.net and work with debug and upgrade, efficient Code, based on specifications. Collaborated with front-end developers and other stakeholders to seamless integration of front-end and back-end components.

Projects

- **Library Management**
  A library management system is designed to manage all the functions of a library.
  It helps the librarian maintain the database of new books and those borrowed by members along with their due dates. Tools used: C++, VS code, SQL
- **E-Commerce website**
  Developed the web app as per the modern design provided for project Mentor, fixed the responsiveness across different screen sizes and fixed the bug across application, worked on C#, JavaScript, HTML, CSS.
- **Nxt Trendz – E-Commerce website Clone**
  React JS, JS, CSS, Bootstrap, Routing • Designed and developed a multi-page e-commerce frontend using React.js and React Router. • Secured user sessions with JWT tokens and stored login states using local storage. • Integrated REST API calls to display product and user data dynamically. • Applied modern styling with Bootstrap and responsive CSS for seamless UX
- **D365FO Training Projects – Self-Initiated**
  Hands-on Practice using Free Microsoft VM & Real-time Project Scenarios Jan 2024 – Present

  - ERP Tools: Microsoft Dynamics 365 Finance & Operations (D365 F&O), Electronic Reporting (ER)
  - Development Tools: Visual Studio (D365FO), Lifecycle Services (LCS), SQL Server Management Studio (SSMS)
  - Programming Languages: X++, SQL
  - Frameworks & Concepts: SysOperation Framework, Chain of Command (COC), Query Management, Event Handlers
  - Integration & APIs: Custom Service Classes, Postman for API testing, Power Automate (basic workflows)
  - Technical Areas Practiced:
    – Form and table customization
    – Data entity creation and import/export
    – Basic SSRS report development
    – Security roles setup
    – Validation methods

Education

- B.Tech in Computer Science Engineering (CSE)
  Bhagwan Parshuram Institute of Technology 2022 – 2026
